Apprentice Name _____

Unit of Competency	Performance Evidence	Employer Capability
CPCWHS2001 Apply WHS requirements, policies and procedures in the construction industry	<p>To demonstrate competency in this unit, a person must apply WHS requirements, policies and procedures on three separate and different occasions in the construction industry.</p> <p>In doing this, the person must meet the performance criteria for this unit.</p>	<p><input type="checkbox"/> The employer performs all of these tasks often enough to assist in training the apprentice and enabling on-site assessment OR <input type="checkbox"/> The apprentice will be required to attend workshop training for either partial or full observation of these tasks</p>
AHCWHS301 Contribute to work health and safety processes	<p>The candidate must provide evidence that they can:</p> <ul style="list-style-type: none"> ▪ apply work health and safety policies and procedures ▪ apply workplace procedures for hazard identification and risk control ▪ read safety warning signs ▪ participate in arrangements for maintaining the health and safety of all people in the workplace ▪ work safely during work operations ▪ record incidents in the work area in accordance with relevant work health and safety legal requirements ▪ observe and direct others to follow safe working operations ▪ communicate safety information within and to work team 	<p><input type="checkbox"/> The employer performs all of these tasks often enough to assist in training the apprentice and enabling on-site assessment OR <input type="checkbox"/> The apprentice will be required to attend workshop training for either partial or full observation of these tasks</p>
AHCLSC311 Set out site for construction works	<p>There must be evidence that the individual has set out a site for construction works on at least one occasion and has:</p> <ul style="list-style-type: none"> ▪ interpreted site plans and specifications ▪ identified and reported workplace health and safety hazards ▪ selected, used and maintained tools and equipment required for setting out construction works ▪ used mathematical and geometrical principles to mark out a site for construction work ▪ established a benchmark on site in relation to reduced levels on plans and specifications ▪ set out site to reduced levels indicated on plan in relation to benchmark ▪ used at least three types of surveying instruments ▪ taken and verified site levels compared to site plan ▪ reported unserviceable tools and equipment and recorded work activities. 	<p><input type="checkbox"/> The employer performs all of these tasks often enough to assist in training the apprentice and enabling on-site assessment OR <input type="checkbox"/> The apprentice will be required to attend workshop training for either partial or full observation of these tasks</p>

Apprentice Name _____

Unit of Competency	Performance Evidence	Employer Capability
AHCLSC317 Construct landscape features using concrete	<p>There must be evidence that the individual has constructed landscape features applying two concrete finishes and has:</p> <ul style="list-style-type: none"> ▪ interpreted site plans and specifications ▪ applied workplace health and safety requirements, including fitted and used personal protective equipment (PPE) ▪ selected, used and maintained tools and equipment required for constructing landscape features using concrete ▪ set out and prepared a site for concrete ▪ measured and constructed profiles ▪ established levels using levelling equipment ▪ installed expansion joints and placed steel reinforcement ▪ performed concrete slump test ▪ poured and finished concrete, including consolidation and trowelling techniques ▪ checked quality of work and cleaned up site ▪ reported unserviceable tools and equipment. 	<p><input type="checkbox"/> The employer performs all of these tasks often enough to assist in training the apprentice and enabling on-site assessment OR <input type="checkbox"/> The apprentice will be required to attend workshop training for either partial or full observation of these tasks</p>
AHCLSC312 Construct brick and block structures and features	<p>There must be evidence that the individual has constructed brick and block structures and features, using two different construction methods and has:</p> <ul style="list-style-type: none"> ▪ interpreted site plans and specifications ▪ applied workplace health and safety requirements, including fitted and used personal protective equipment (PPE) ▪ selected, used and maintained tools and equipment required for constructing brick and block structures and features ▪ setup profiles for brick and block structures and features ▪ measured and constructed profiles using mathematical techniques ▪ established levels using levelling equipment ▪ gauged brickworks to maintain correct spacing ▪ applied bonding techniques ▪ cut bricks or blocks ▪ applied joint treatment ▪ checked quality of work and cleaned up site ▪ cleaned brick or block ▪ reported unserviceable tools and equipment. 	<p><input type="checkbox"/> The employer performs all of these tasks often enough to assist in training the apprentice and enabling on-site assessment OR <input type="checkbox"/> The apprentice will be required to attend workshop training for either partial or full observation of these tasks</p>

Apprentice Name _____

Unit of Competency	Performance Evidence	Employer Capability
AHCLSC319 Implement a retaining wall project	<p>There must be evidence that the individual has implemented a retaining wall project on at least one occasion and has:</p> <ul style="list-style-type: none"> ▪ interpreted site plans and specifications ▪ applied workplace health and safety requirements, including fitted and used personal protective equipment (PPE) ▪ selected, used and maintained tools and equipment required for implementing a retaining wall project ▪ calculated material and resource requirements ▪ established survey benchmarks ▪ excavated to specified soil levels ▪ used tools and equipment to construct retaining wall projects ▪ checked quality of work and cleaned up site ▪ reported unserviceable tools and equipment. 	<p><input type="checkbox"/> The employer performs all of these tasks often enough to assist in training the apprentice and enabling on-site assessment OR <input type="checkbox"/> The apprentice will be required to attend workshop training for either partial or full observation of these tasks</p>
AHCDRG305 Install drainage systems	<p>There must be evidence that the individual has installed drainage systems on at least one occasion and has:</p> <ul style="list-style-type: none"> ▪ applied workplace health and safety requirements ▪ prepared for installation activities ▪ selected materials, tools, equipment and machinery appropriate to the scope of works ▪ interpreted drainage system plans and drawings ▪ interpreted site specifications, soil types and drainage system plans ▪ measured materials required to install drainage systems ▪ set out drainage system works ▪ set out, surveyed, tested and excavated the installation site ▪ levelled and aligned earthworks ▪ installed drainage system works ▪ tested the drainage system ▪ restored site and removed and disposed of waste materials 	<p><input type="checkbox"/> The employer performs all of these tasks often enough to assist in training the apprentice and enabling on-site assessment OR <input type="checkbox"/> The apprentice will be required to attend workshop training for either partial or full observation of these tasks</p>
